PROFESSIONAL SUMMARY

Full-Stack Software Developer proficient in Python (Flask) and JavaScript (React, Node.js, Next.js), experienced in building scalable, cloud-based and user-friendly applications. Skilled in UI/UX wireframing and prototyping using Figma. Passionate about serverless technologies, database management, and optimizing web performance. Strong problem-solving skills and ability to collaborate in agile teams.

TECHNICAL SKILLS

- **Front-End:** HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS, Bootstrap
- **Back-End:** Python, Flask, Node.js, Express.js, REST APIs, JWT, Ruby, Rails
- **UI/UX Design:** Figma (Wireframing, Prototyping)
- **Databases:** MongoDB, MySQL, PostgreSQL, SQLite
- **Version Control:** Git, GitHub
- **Cloud & DevOps:** Docker, Firebase, AWS, Render, Vercel
- **Other:** Agile Methodologies, Debugging, Unit & Integration Testing, Responsive Web Design
- **Soft Skills:** Communication, Adaptability, Team Leadership, Time Management

TECHNICAL PROJECTS

Task Management Application

[\[GitHub Repo\]](#) | [\[Live Demo\]](#)

A full-stack task management web application built with React and Flask to help teams collaborate efficiently.

- Designed an interactive and user-friendly dashboard for managing tasks.
- Implemented real-time notifications for task updates, comments, and deadlines using Flask-SocketIO.
- Developed a role-based authentication system with secure token-based authentication.
- Integrated a sleek UI/UX and interactive elements for a modern user experience

Micro Donation Platform

[\[GitHub Repo\]](#) | [\[Live Demo\]](#)

A Flask-React Web Application that enables users to make small, impactful donations to support various causes like education, healthcare, and environmental initiatives.

- Developed RESTful APIs with Flask and Node.js
- Implemented a responsive design to enhance accessibility across devices.
- Integrated Flask-SocketIO to enable real-time donation updates.
- Designed a secure payment system with M-pesa.
- Leveraged serverless functions for automating donation notifications.

Eco Home Guide

[\[GitHub Repo\]](#) | [\[Live Demo\]](#)

A React application that provides eco-friendly lifestyle tips and helps users track sustainable habits.

- Leveraged React state management for real-time habit tracking.
- Built dynamic charts to visualize users' environmental impact.
- Designed a gamified system to encourage user engagement.

EXPERIENCE

Full-Stack Website Developer

Teveza Technologies Limited

2025 - Present

- Design, develop, and maintain responsive and dynamic websites using modern frontend and backend frameworks.
- Design and manage relational and NoSQL databases to store, retrieve, and manipulate application data securely and efficiently.
- Build and integrate RESTful and GraphQL APIs to enable seamless communication between frontend and backend systems, as well as with third-party services.

EDUCATION

Moringa School — Nairobi, Kenya

Certificate in Full Stack Website Development

September 2024 - March 2025

The Technical University of Kenya — Nairobi, Kenya

Bachelor of Engineering in Chemical Engineering

Graduated on 26th November 2024

CERTIFICATIONS

Founders Factory Africa Academy Explore Program - Certificate of Completion | December 2023

SME Growth Lab Digital Accelerator Program Cohort 1 - Certificate of Achievement | March 2024

Basics of Disciplined Agile | April 2024

The Basics of Scrum | May 2024

Lean Six Sigma White Belt Certification | May 2024

Generative AI Overview for Project Managers | May 2024

Fundamentals of Predictive Project Management | May 2024

Introduction to Design Thinking | March 2025

Introduction to Customer Discovery | March 2025

High-Performance Teams | March 2025

Explore Entrepreneurship | March 2025

School of Climate Change Certificate of Completion | April 2025
