PROFESSIONAL SUMMARY

Full-Stack Software Developer proficient in Python (Flask) and JavaScript (React, Node.js, Next.js), experienced in building scalable, cloud-based and user-friendly applications. Skilled in UI/UX wireframing and prototyping using Figma. Passionate about serverless technologies, database management, and optimizing web performance. Strong problem-solving skills and ability to collaborate in agile teams.

TECHNICAL SKILLS

- **Front-End:** HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS, Bootstrap
- **Back-End:** Python, Flask, Node.js, Express.js, REST APIs, JWT, Ruby, Rails
- **UI/UX Design:** Figma (Wireframing, Prototyping)
- **Databases:** MongoDB, MySQL, PostgreSQL, SQLite
- **Version Control:** Git, GitHub
- **Cloud & DevOps:** Docker, Firebase, AWS, Render, Vercel
- **Other:** Agile Methodologies, Debugging, Unit & Integration Testing, Responsive Web Design
- **Soft Skills:** Communication, Adaptability, Team Leadership, Time Management

TECHNICAL PROJECTS

Task Management Application

[\[GitHub\]](#) | [\[Live Demo\]](#)

A full-stack task management web application built with React and Flask to help teams collaborate efficiently.

- Designed an interactive and user-friendly dashboard for managing tasks.
- Implemented real-time notifications for task updates, comments, and deadlines using Flask-SocketIO.
- Developed a role-based authentication system with secure token-based authentication.
- Integrated a sleek UI/UX and interactive elements for a modern user experience

Micro-Donations Platform

[\[GitHub\]](#) | [\[Live Demo\]](#)

A Flask-React Web Application that enables users to make small, impactful donations to support various causes like education, healthcare, and environmental initiatives.

- Developed RESTful APIs with Flask and Node.js
- Implemented a responsive design to enhance accessibility across devices.
- Integrated Flask-SocketIO to enable real-time donation updates.
- Designed a secure payment system with M-pesa.
- Leveraged serverless functions for automating donation notifications.

Eco Home Guide

[\[GitHub\]](#) | [\[Live Demo\]](#)

A React application that provides eco-friendly lifestyle tips and helps users track sustainable habits.

- Leveraged React state management for real-time habit tracking.
- Built dynamic charts to visualize users' environmental impact.
- Designed a gamified system to encourage user engagement.

EXPERIENCE

Full-Stack Website Developer

Teveda Technologies Limited | *January 2025 - Present*

- Built responsive websites and dashboards using React, Next.js, Flask, and Node.js.
- Designed and managed scalable NoSQL and relational databases for secure data handling.
- Developed and integrated RESTful and GraphQL APIs to connect frontend apps with internal and external services.
- Collaborated with cross-functional teams to deliver client projects using agile methods.

EDUCATION

Moringa School — Nairobi, Kenya

Certificate in Full Stack Website Development

September 2024 - March 2025

The Technical University of Kenya — Nairobi, Kenya

Bachelor of Engineering in Chemical Engineering

Graduated on 26th November 2024

CERTIFICATIONS

Agile & Project Management

- **Lean Six Sigma White Belt Certification** | *May 2024*
- **Basics of Disciplined Agile** | *April 2024*
- **The Basics of Scrum** | *May 2024*
- **Fundamentals of Predictive Project Management** | *May 2024*
- **High-Performance Teams** | *March 2025*

Innovation & Entrepreneurship

- **Founders Factory Africa Academy (Explore Program)** | *December 2023*
- **SME Growth Lab Digital Accelerator (Cohort 1)** | *March 2024*
- **Explore Entrepreneurship** | *March 2025*
- **Introduction to Customer Discovery** | *March 2025*
- **Introduction to Design Thinking** | *March 2025*

Technology & Sustainability

- **Generative AI Overview for Project Managers** | *May 2024*
- **School of Climate Change – Certificate of Completion** | *April 2025*
