

BENJAMIN MWERI BAYA

Nairobi, Kenya | b3njaminbaya@gmail.com | +254794126508 | [GitHub](#) | [Portfolio](#) | [LinkedIn](#) | [DEV Profile](#)

PROFESSIONAL SUMMARY

Full-Stack Software Developer proficient in Python (Flask, Django) and JavaScript (React, Node.js, Next.js), experienced in building scalable, cloud-based and user-friendly applications. Skilled in UI/UX wireframing and prototyping using Figma. Passionate about serverless technologies, database management, and optimizing web performance. Strong problem-solving skills and ability to collaborate in agile teams.

TECH STACK

- **Front-End:** HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS, Bootstrap
- **Back-End:** Python, Flask, Django, Node.js, Express.js, Java, Spring Boot
- **Mobile:** Flutter, Dart, Kotlin, Firebase
- **UI/UX Design:** Figma (Wireframing, Prototyping)
- **Databases:** MongoDB, MySQL, PostgreSQL, SQLite
- **Version Control & Tools:** Git, GitHub, Trello
- **Cloud & DevOps:** AWS, Render, Vercel

TECHNICAL PROJECTS

Task Management Application

[\[GitHub\]](#) | [\[Live Demo\]](#)

A full-stack task management web application built with React and Flask to help teams collaborate efficiently.

- Designed an interactive and user-friendly dashboard for managing tasks.
- Implemented real-time notifications for task updates, comments, and deadlines using Flask-SocketIO.
- Developed a role-based authentication system with secure token-based authentication.
- Integrated a sleek UI/UX and interactive elements for a modern user experience

Micro-Donations Platform

[\[GitHub\]](#) | [\[Live Demo\]](#)

A Flask-React Web Application that enables users to make small, impactful donations to support various causes like education, healthcare, and environmental initiatives.

- Developed RESTful APIs with Flask and Node.js
- Implemented a responsive design to enhance accessibility across devices.
- Integrated Flask-SocketIO to enable real-time donation updates.
- Designed a secure payment system with M-pesa.
- Leveraged serverless functions for automating donation notifications.

EXPERIENCE

Freelance Full-Stack Website Developer

Tevexa Technologies Limited | March 2025 - June 2025

- Built responsive websites and dashboards using React, Next.js, Flask, and Node.js.
- Designed and managed NoSQL and SQL databases for secure and scalable applications.
- Developed and integrated RESTful and GraphQL APIs for dynamic frontend-backend communication.
- Collaborated with cross-functional teams to deliver client projects using agile methods.

EDUCATION

Moringa School — Nairobi, Kenya

Certificate in Full Stack Website Development

September 2024 - March 2025

The Technical University of Kenya — Nairobi, Kenya

Bachelor of Engineering in Chemical Engineering

September 2017 - December 2023

CERTIFICATIONS

Software & Agile Development

- **High-Performance Teams** | Queen's University, March 2025
- **The Basics of Scrum** | May 2024
- **Fundamentals of Predictive Project Management** | May 2024
- **Basics of Disciplined Agile** | April 2024

Product & Innovation Thinking

- **Ignite Entrepreneurship** | Queen's University, May 2025
- **Explore Entrepreneurship** | Queen's University, March 2025
- **Introduction to Customer Discovery** | Queen's University, March 2025
- **Introduction to Design Thinking** | Queen's University, March 2025
- **Founders Factory Africa Academy (Explore Program)** | December 2023

Emerging Tech

- **Generative AI Overview for Project Managers** | May 2024
